

FINISHING HAND TOOLS

HAND TOOLS FOR FLAT FLOOR FINISHING

BUMP CUTTER
Cuts down bumps and fills low areas after concrete slab has been floated.

CHECK ROD
Reduces bumps and fills low areas while the concrete is still plastic.

CHANNEL FLOAT
Use in lieu of traditional bull float for flatter floors and pavements.

Our hand tools are available with either the Rock-It (left) or Equalizer Pitch (right) adjusting head for precise, even control.

DESCRIPTION	TOOLS WIDTHS	CHANNEL / BEAM DIMENSIONS
HTCF CHANNEL FLOAT	5 - 12 ft (1.5 - 3.7 m)	6 in (15.2 cm)
HTCR CHECK ROD	8 - 16 ft (2.4 - 4.9 m)	2 x 4 in (5.1 x 10.2 cm)
HTBC BUMP CUTTER	8 - 16 ft (2.4 - 4.9 m)	2 x 4 in (5.1 x 10.2 cm)

Checked to exact flatness tolerances, our extruded magnesium Allen Hand Tools are specifically designed to improve floor or pavement levelness. Each tool comes standard with three 6' (1.8 m) snap-together aluminum handles, the equalizer, outriggers and turn buckle.

PANS & BLADES

Allen Engineering pioneered the use of floating discs (or pans) on riding trowels in 1989 and Allen® Pans remain today the finisher's choice when high FF Numbers are specified on a concrete floor. Allen's flat pan tolerances cut bumps and fill low spots in the concrete floor. Insist on Allen® Steel Pans for your Allen Riders and Walk-Behinds. Made to the same exacting tolerances as the trowels themselves, nothing finishes better.

Safety Catch Pan

Clip-On Pan

TWO TYPES OF PANS

Allen offers both Flat (0" to 1/8" dish) and Mild-Dished (1/4" to 3/8" dish) steel pans. This gives contractors even more pan choices from Allen.

MADE IN
THE USA

Allen Engineering offers a complete line of finish blades, combination blades and clip-on float shoes for your walk-behind or ride-on power trowels. We use high quality steel or composite plastic with six high strength rivets to maximize blade life. For the flattest floors, trust only Allen Finishing Blades. And, Allen Blades fit most other brands of walkers and riders.
